

# The Beanstack Tracker App

You can use the Beanstack app to track your titles and earn badges for the whole family on your phone or tablet.

- Keep track of what your kids are reading - you can even log titles for two users at once if you're reading together!
- Scan ISBN barcodes to quickly add titles to your reading log.
- Manage family reading logs and view each participant's statistics.

Get started:

1. Go to [kids.emmaclark.org](http://kids.emmaclark.org) & click on the Reading Club tab.
2. **Register online** by creating a Beanstack account.
3. Download the Beanstack app from the **Apple App store** or **Google Play store**.
4. Open the app and tap 'Find Your Library or School' at the bottom of the screen. Search for and select "Emma S. Clark Memorial Library".
5. Sign into the app using your Beanstack account and tap the plus sign (+) at the bottom of the screen to begin adding titles to your reading log.

## Use Alexa to Log Your Reading

We're excited to announce that our online reading platform Beanstack now has an Alexa Skill, which makes it even easier to keep track of the books you will read! If you don't already have a Beanstack account, first visit [kids.emmaclark.org](http://kids.emmaclark.org) & click on the Reading Club tab to setup your account.

Then follow these simple steps to set up the skill on your Alexa-enabled device and start logging your reading:

1. Enable the skill by either saying "Alexa, enable Beanstack Tracker" or searching for "Beanstack Tracker" in the Alexa Skill Store.
2. If you enabled the skill by voice, access the skill from your Amazon Alexa App and Choose to Link Your Account.
3. Search for "Emma" or "Emma S. Clark Memorial Library" when prompted.
4. Click 'Log In To Your Account.'
5. When you receive the message "Beanstack Tracker has been successfully linked" you may close the app or website.
6. When using Alexa, say "Alexa, open Beanstack Tracker" and follow the prompts to log books for the reading program! Because Beanstack allows families to track multiple readers in a single account, your whole family can use Alexa to log their books.
7. When logging for multiple readers you're going to have to re-open Beanstack Tracker for each reader.

If your family has multiple Alexa devices at home, you can use the same Beanstack account across devices or connect each device to a different account. The Beanstack Tracker for Alexa only logs reading of titles.

**Beanstack also offers a "Beanstack Tracker" app, available in the Apple App store or Google Play store.**
